

CITY OF WEST PARK  
**DEWATERING AFFIDAVITS**

STATE OF FLORIDA

COUNTY OF BROWARD

Before me this day personally appeared \_\_\_\_\_,  
Contractor of the referenced Master Permit # \_\_\_\_\_, for work at the following address:  
\_\_\_\_\_, who, being  
duly sworn, deposes and says that they have investigated and determined through available resources or  
technologies the existing groundwater for this site.

The Contractor has evaluated that under the permit application he/she has determined the following applies for  
the work listed under the permit referenced above (CONTRACTOR SHALL INITIAL ONE LINE BELOW):

\_\_\_\_\_ No dewatering anticipated

\_\_\_\_\_ Dewatering is anticipated and existing site conditions allow for groundwater discharge to be maintained  
on-site through approved dewatering technologies and methods. Contractor shall ensure proper equipment and  
materials remain in place and that approved dewatering plan is followed. No discharge shall occur to adjacent  
properties, waterbodies or City Right of Way. In the event dewatering is required to be discharged off-site,  
CONTRACTOR shall obtain an Engineering Permit from the City of Fort Lauderdale and other jurisdictions prior  
to execution of the dewatering activities.

\_\_\_\_\_ DEWATERING PERMIT REQUIRED - Dewatering is required and existing site conditions and / or limits  
of work will require groundwater to be discharged off-site through appropriate and approved methods. All proper  
permits, including an Engineering Permit-DEWATERING (GDWTR) from the Department of Sustainable  
Development and other applicable jurisdictions, as necessary, shall be obtained prior to execution of any  
dewatering activities. Contractor shall ensure that proper materials and equipment remain in place throughout all  
dewatering activities and shall call for all necessary inspections to complete the work in conformance with the  
permitted conditions in the permit.

The CONTRACTOR shall hold harmless and indemnify the City, its Officials, and authorized representatives for  
any damage to adjacent structures, and agree further to pay for damages and all legal or professional costs, fines,  
etc. for failure to comply with State Law and/or Water Policy and the City of Fort Lauderdale Ordinances as a  
result of site activities that arise from CONTRACTOR dewatering activities.
